

Home Inventory Checklist

The Insurance Texans Trust®
• Since 1896 •

It could happen to you.

If you had to file a claim, would you be able to list all the contents of your home and their value? Most people simply don't realize how much they actually have, and under the stress of a loss it's easy to forget key valuables in your home.

The best way to make sure you have adequate insurance coverage is to prepare an inventory. This brochure is designed to help you develop such a record.

Completing the following pages will help you determine the amount of insurance that should be carried on your household goods and personal possessions. This record will be invaluable to you in case of fire or theft.

Be sure to store this record off-premises in a safe place such as a safe deposit box.

Take time to prepare this inventory **immediately** for your protection. And be sure to keep this file current.

If you need assistance, please contact your local Germania agent. They will be glad to assist you.

Home Inventory Tips

- Take photos of both individual items in your inventory and an overview of entire rooms. Store the photos in the same place as this inventory, in a secure place away from your home or in a fire-proof safe.
- Include the serial numbers of all items that have them.
- Keep all receipts for major items in your inventory.
- Take photos of closets and drawers open to show quantities of clothing inside.
- When taking photos of a shiny or reflective surface, hold your camera at a 45 degree angle to avoid glare.
- Update your home inventory at least once a year to ensure that it remains current.
- Add new items to your home inventory as soon as they are purchased and delete items that have been replaced.
- Keep family photo negatives or digital files backed up on disc in a safe place.
- Don't forget about the contents of your pantry, refrigerator and freezer. Food has value and may be reimbursed in case of a loss.
